Geschlecht: Männlich  
Preis: \$ 134.00

Erstellt:

22.11.2019

Age details: Young  
Color: silver blue  
Nocturnal by nature; adaptable to daytime activity  
Ideal for children 14 & up  
Requires temperatures below 75° F  
Lives up to 15 years

Beschreibung: Note: Pet availability is seasonal. State and local regulations may vary. Pricing may vary by store location. PetSmart stores cannot match the price below for this pet. Ask a store associate for details. Chinchillas are closely related to guinea pigs, and many Pet Parents find that their soft fur, lack of odor and clean habits are a few reasons why they make great pets. They keep their soft fur clean by taking a dust bath 2-3 times per week. (It's really fun to watch, too!) Nocturnal by nature, chinchillas are most active in the evening but can adapt to daytime activity. Chinchillas raised together can live together peacefully in same gender pairs. With regular, gentle handling, they will bond strongly with their Pet Parents.

#### Things to remember

#### Lifting & handling

Handle your chinchilla gently -- scoop her up in both hands and hold her snugly against your body with cupped hands so she'll feel safe and secure.

#### Temperature sensitive

Chinchillas overheat easily, and should be kept in a cool environment.

Additional Information: Nocturnal  
They like to run and play at night and sleep during the day, so be prepared for them to be active after dark. However, they can adapt to being daytime active.

#### Nutrition

Choose a fortified chinchilla diet.

#### Habitat

Your chinchilla needs a well-ventilated home with a solid floor, large enough for a food dish and water bottle or bowl, and a hiding house. There should be plenty of room for all cage accessories, and for her to move around freely.
